THE GAZETTE OF THE MUNICIPALITY OF RAKYTNÍK - RAKOTŤÁS

ABOUT PARLIAMENTARY ELECTIONS

Elections to the National Council of the Slovak Republic will take place on **September 30, 2023**, Saturday. For more information, feel free to visit the website of the Ministry of the Interior or our municipality. All households will receive official notifications within the time limit allotted by current laws.

ABOUT POSTAL TAX PAYMENT

Paying taxes by check was invented **to make tax payments more transparent. Furthermore, the bank of our village also advocated that tax payments be made by bank transfer.** After payment, the payer retains the return slip, i.e. the end of the check, which can be used to prove the payment. The post office will transfer the paid amount **within 2-5 days** to the bank account of our municipality, and then send a separate transfer statement on which the individual paid items are listed. Thus, the paid amounts go **through the bank** on the one hand, and **through the post office** on the other. **Thus, every payment has a double trace.**

ABOUT ACTIVATION WORKS

As we have already reported several times, **our municipal office can no longer enter into contracts with anyone for the purpose of continuing activation works. All activation is done through the labor office.** Work has to be done for the basic allowance, so even more work should be done for the activation allowance.

THE COMPETENT MINISTRIES EXTENDED THE FINANCIAL SUPPORT OF THE PROJECT NAMED "SUPPORT FOR THE MAINTENANCE OF WORKING HABITS" UNTIL THE END OF MARCH 2024.

From October 2023 to March 2024, people living in financial need in our village will still have the opportunity to work for activation allowance. Our municipality will only recommend those to participate in the project who have **done something** on projects in previous periods, and we will give priority to those whose **taxes will be in order.**

THANK YOU FOR KEEPING ORDER IN FRONT OF YOUR OWN GATES AND HOUSES!
